

Enerlites®

Residential Grade 20A Self-Grounding Tamper-Resistant Decorator Receptacle

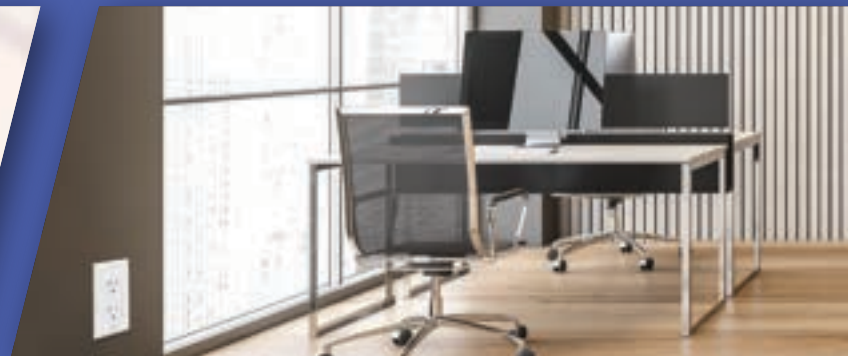

This self-grounding tamper-resistant receptacle is made of high-impact resistant polycarbonate thermoplastic for long service life. The shallow body design is for maximum wiring capability, with backstab or side-wire options available. Tamper-resistant shutters prevent insertion of foreign objects into the device.

- Improves child safety
- Automatically ground to the metal outlet box
- Removable yoke tabs for ideal alignment
- 2-year warranty
