### Industrial Grade Toggle 20A Double Pole AC Quiet Switch

TOGGLE SWITCHES

#### Description

Enerlites industrial-grade toggle switches are designed for demanding applications where durability and performance are key. The switch features a robust exterior housing made from high-performing thermoplastics that can withstand harsh environments and features self-grounding mounting tabs. Impact resistant and easy to install, Enerlites toggle switches are the ideal choice for any commercial or industrial setting.

#### Features

- Heavy gauge copper alloy 1-piece arm for top performance
- Fully enclosed switch mechanism in rugged housing for strength, track and arc resistance
- Made from impact-resistant Thermoplastic Nylon with solid steel components.
- Large silver cadmium-oxide contacts for long life, prevent sticking, welding and excessive pitting
- Self-grounding; Break-off plaster yoke tabs.
- For the best fit and color match, always use ENERLITES wall plates such as the 8811-W polycarbonate thermoplastic or 7711 stainless steel toggle switch covers.

#### Specifications

Type	Double Pole
Ground	Self-Grounding Clip, Green Terminal Screw
Amperage	20A
Voltage	120/277 VAC
Termination	Back Wiring
Material	Thermoplastic, Solid Steel Components
Dimension	3.65" H x 1.30" W x 0.90" D
Warranty	2 Years

#### Testing & Code Compliance

#### Color Swatches

#### Application

- Fulfillment Center
- Manufacturing Facility
- R&D Building
- Warehouse
- Office
- Retail Store
- Hotel
- Restaurant
