

Enerlites®

FULL LED GUIDE LIGHT AUTOMATIC DAY & NIGHT SENSOR

MODEL NO: 91000-GL

DESCRIPTION

The ENERLITES full length decorator light is triggered by a daylight sensor measuring the amount of light within a room. The design of the guide light consists of a frosted white lens with clean edges that covers the LED lights and a daylight sensor that's conveniently located just above the guide light. The light output from the LED is a low white dim that's easy on the eyes.

FEATURES

- High-impact resistant thermoplastic cover and body for long service life in commercial applications
- Green grounding screw and self-grounding clip for automatic grounding connection in grounded metal wall box
- Shallow design for maximum wiring room in box
- Removable yoke tabs for ideal alignment
