## WIRELESS CONTROL PLUG LOAD RECEPTACLE

MODEL NO: PL20R

### DESCRIPTION

The controlled receptacle features an internal relay for switching the plug load on/off according to the sensor's occupancy or vacancy detection. It should be installed to control outlets used for task lighting, monitor, flat screen TV, and non-essential equipment in private offices, conference rooms, open offices, lunch rooms and break rooms and other areas in commercial buildings.

### FEATURES

- Back wired installation
- Each receptacle has its own unique code to ensure ease in set-up
- Compliant with 2017 NEC Article 406.12, ASHRAE Energy Efficiency Standard 90.1, and CA Title 24 when used in conjunction with PLBPC

### SPECIFICATIONS

Voltage	20A 125 VAC
Warranty	2 Years

### TESTING & CODE COMPLIANCE
