

Enerlites®

WI-FI SMART RELAY MODULE

MODEL NO: WFRSM1

DESCRIPTION

The ENERLITES WFRSM1 is a single relay switch module that can turn any wall switch into a smart switch with WiFi technology. A technologically advanced relay that can be manually controlled with conjoining switch or remotely through the WiFi network. Features pre-programmed and customizable functions: set scenes, schedules, or connect to a motion sensor. Requires in-wall installation with hard-wired connections. Requires a secured 2.4 GHz Wi-Fi network connection.

FEATURES

- Works with ENERWAVE Wi-Fi App, no hub required
- Compatible with Amazon Alexa/Google Home for voice control
- Requires in-wall installation with hard wired connections - neutral wire required
- Compatible with different loads including LED
- Save energy by automating ON/OFF times or using timer
