## ASTRONOMIC DIGITAL IN-WALL PROGRAMMABLE TIMER SWITCH

MODEL NO: HET01-H1

### DESCRIPTION

The ENERLITES HET01-H1 is an in-wall digital timer switch with astronomic programming features. The astronomic features calculate dusk and dawn times based on the time of year and geographic location to ensure that any dusk/dawn program settings are accurate. It features a large LCD screen with a backlight and a built-in battery pack that retains saved programs in the event of a power outage. This device works with incandescent, halogen, and LED lights, which make it ideal for either indoor or outdoor use.

### FEATURES

- 4 operating modes: manual, automatic, random, count down
- Automatic daylight savings function - no need to reprogram
- Connection: single pole or 3-way
- 7 customizable settings protected during power outages
- Built-in back-up battery lasts up to 14 days
- Neutral Wire Required

### SPECIFICATIONS

Voltage	120VAC, 60Hz
Resistive	15 Amp
Tungsten	1200W
Standard Ballast	1200VA
Electronic Ballast/LED	5A / 600W
