

Enerlites®

ANTIMICROBIAL 2-GANG BLANK, MID-SIZE STAINLESS STEEL WALL PLATE

MODEL NO: 7702MA

DESCRIPTION

The ENERLITES 7702MA antimicrobial stainless steel wall plate is a cutting-edge addition to interior design that combines the durability of stainless steel with the hygiene benefits of antimicrobial technology. Crafted from high-quality stainless steel, this wall plate not only enhances the aesthetic appeal of any space but also actively inhibits the growth and spread of bacteria, viruses, and other harmful microorganisms.

FEATURES

- Silver ion additive coating for antimicrobial properties
- Disinfectant surface resists microbial growth
- Made of 430 stainless steel
- Provides extended life in extreme and corrosive environments
- Smooth finish without recessed lines for easy cleaning and to maintain attractive appearance
