

Enerlites®

VERTICAL DUPLEX WEATHERPROOF WALL PLATE

MODEL NO: 8821-WPV

DESCRIPTION

The ENERLITES 8821-WPV vertical outlet cover plate is designed to replace the wall plate on an outdoor duplex receptacle. Designed specifically for outdoor applications, this vertical wall plate features a hinged cover that seals tightly to protect the outlet from animals, weather, and other harmful outdoor elements. The weatherproof wall plate is made from ultra-durable polycarbonate thermoplastic material for high resistance to heat and impacts, so you can rest assured that this duplex outlet cover can keep your outdoor receptacles safe.
