

Enerlites®

FAN CONTROL HUMIDITY SENSOR

MODEL NO: DWHS

DESCRIPTION

The ENERLITES DWHS is a single-pole humidity sensor used to control the humidity level in a room. When humidity is detected, the ventilation fan is activated, and turns off when the humidity level drops. This device helps prevent mold and mildew by detecting and removing moisture in the air which in turn, provides a more comfortable and healthy environment.

FEATURES

- Turns fan ON/OFF automatically based on preset humidity level
- Humidity override option
- Can be manually controlled for immediate ventilation needs
- 3 humidity settings: high, medium, low
- Time delay for fan is 20 minutes
- Replaces single pole switch
- Interchangeable face cover
- Neutral wire required

SPECIFICATIONS

Voltage	120VAC, 60 Hz
Maximum Fan Load	1/4 HP, 3A
Time Delay	20 Minutes
Humidity Range	45%-80% Relative Humidity
Warranty	2 Years

TESTING & CODE COMPLIANCE

APPLICATIONS

- Bathrooms
- Basements
- Laundry Rooms
- Home Spas
