

# Enerlites®

## LOW VOLTAGE COUPLER

MODEL NO: LV-CAT5

### DESCRIPTION

The ENERLITES LV-CAT5 is a coupler to connect Enerlites room controller power pack to LVD-101/102 low voltage LED dimmers. The LVD-101/102 must be used with LV-CAT5 to receive 24V from the MPP-24 Power Pack. They also work with the MPC-50L Low Voltage Occupancy Sensor and MPL-010 Daylight Sensor, to recognize and react to motion sensing and automatic brightness adjustments of LED lights.

### FEATURES

- 6 low voltage terminals
- Designed to work with MPP-24
- Convert low voltage wires to 2 Cat5 connectors
- Works with LVD-101 and LVD-102

### SPECIFICATIONS

Voltage	24VDC
Dimming Terminals	0-10V
Low Voltage Terminals	24V, Common, Control, Manual
Warranty	2 Years

### APPLICATIONS

- Homes
- Apartments
- Condominiums
- Offices
- Hotels
- Restaurants
